NOTICE TO LIEN-HOLDERS.

IN THE CIRCUIT COURT of the United States for the Ninth Circuit, District of Nevada, C. P. Ansell, Complainant against The Truckee and Steamboat Springs Irrigating Canal Company Defendant. Notice is hereby given that the complainant in the above entitled action has commenced an action in the above entitled Court against the defendant above named to recover liens held, claimed and owned by him under the provisions of an Act of the Legislature of the State of Nevada, entitled "An Act to secure liens to mechanics and others and to repeal all other Acts in relation thereto," approved March 2, 1875. Said liens are claimed upon the following described premises and property owned by defendant, to-wit: That certain water ditch and irrigating canal, situate, lying and being in the County of Washoe, State of Nevada, known as and called the Truckee and Steamboat Springs Irrigating Canal Company's canal commencing at the boundary line between the States of California and Nevada, about two miles above the town of Verdi, and extending thence in a general southeasterly direction in the distance of 34 miles to a point near the Steamboat Springs in said County of Washoe in Section 33, Township 18 North, Range 2 East Mount Diablo Base and Meridian, together with the land in and upon which said Canal is constructed, and the right of way for the same and all the water rights and privileges had, used, claimed or enjoyed by defendant or to which defendant claims or is entitled to and the right to the waters of the Truckee River to the full capacity of said ditch or canal, as it now is or may be hereafter enlarged by said defendant, and also all easements, now had, owned or enjoyed by said defendant upon the lands over which said canal runs, and all ditches, aqueducts and other structures and appurtenances and dams or other structures used with said canal and water privileges or to the use of which said defendant is entitled, and every other right of every nature and kind owned by defendant, useful or necessary, to the full enjoyment of said canal and appurtenances and to the conveying of water through said canal for irrigating and other beneficial purposes.

Notice is hereby given to all persons having, holding or claiming any Lien or Liens against said premises or property or any part thereof under said Act of the Legislature, to be and appear before said Court at the Court Room thereof at the City of Carson, Humboldt County, State of Nevada, in said District of Nevada, on Monday, the 6th day of September, A. D. 1880 at 10 o'clock A. M. of said day, and then and there make due proof of their Liens.

MISCELLANEOUS.

DR. HALL'S BALSAM

Cures Colds, Pneumonia, Bronchitis, Asthma, Croup, Whooping Cough, and all diseases of the Breathing Organs. It soothes and heals the membranes of the Lungs, inflamed and poisoned by the disease, and prevents the night sweats and tightness across the chest which accompany it. CONSUMPTION is not an incurable malady. It is only necessary to have the right remedy, and HALL'S BALSAM is that remedy. DON'T DESPAIR OF RELIEF, for this benign specific will cure you, even though professional aid fails.

Dr. M. H. Hinsdale.

Kewanee, Ill., advises me of a remarkable cure of Consumption. He says: "A neighbor's wife was attacked with violent lung disease, and pronounced beyond help from Quack Consumption. As a last resort the family was persuaded to try HALL'S BALSAM. To the astonishment of all, by the time she had used one-half dozen bottles she was about the house doing her own work. I saw her at her worst stage, and had no idea she could recover."

Were Hancock, and Ben Hill, and Wade Hampton, and Jeff Davis, and Alex. Stevens as brotherly in 1862 as they are now? If not, who changed?

H. F. Page, representative in Congress from the second California District, passed through Chicago Thursday with his family on his way to the Golden State.

When Hancock issued and enforced his brutal order to burn the army's overcoats when the weather was bitter cold, he didn't burn his own; not much, but wrapped it around him and sneered at the thought that "common" soldiers had any right to get cold.

The Republican says there is not a saw mill idle this season, within a radius of ten miles of Truckee, and all are running at their full capacity. The great demand for lumber created by the Eureka fire is liable to keep those mills fully employed for some time to come.

The Carson Appeal says it is reported that on last Sunday night the Washoes held a council and decided to kill the two white rascals who imprisoned a young squaw and outraged her. They consider that they have a perfect right to do so as the authorities have taken no steps in the matter.

The Resolutes of Virginia city and the Socials of Carson will play a game of baseball at Treadway's Park, Carson, to-day, for \$75 a side. This will probably be the most interesting game of the season, as both clubs have been practicing hard during the week for the occasion.

Gold continues to roll into this country from Europe. As there is no extra demand for iron or any other costly commodity this season the coin payments for American domestic produce will foot up an enormous sum. Last year, despite heavy importations, the cash receipts were over \$15,000,000 on the 15th of August.

Yesterday while laborers were excavating for the sewer near Wicker Park, Chicago, in the northwestern part of the city, came upon the petrified remains of a Mastodon at a depth of eighteen feet. Among the pieces already secured are a section of the tusk four inches in diameter at one end and six inches at the other end, and a tooth weighing six pounds.

On the 15th of September Weed, of the Susanville Advocate, intends to commence at Greenville, Plumas Co., the publication of a new paper to be called the Greenville Bulletin. It will be on paper 20x26 inches, having four pages of five columns each, be independent in all things, neutral in nothing; and will be furnished to subscribers at three dollars per annum.

A dispatch was received Thursday at the Palace from President Hayes at Washington, saying that the invitation extended to him by Mr. Sharon to become a guest of that hotel while visiting San Francisco would be accepted, and requesting that the rooms be prepared at once for himself and party. The President's arrival is looked for about the 9th. He will probably occupy the rooms which General Grant had.

The crops of the leading countries are estimated as follows:—Russia, 35,000,000 bushels; Austro-Hungary, 12,000,000, Chile, 4,000,000; Canada, and Manitoba, 13,000,000; British India, 8,000,000; Egypt, 2,000,000; Australia, 8,000,000, and the United States, 180,000,000. Deficiency—Switzerland, Spain and Portugal, 8,000,000 bushels; Italy, 12,000,000; Germany, Holland and Belgium, 18,000,000; England, 187,000,000; France, 55,000,000. This makes a surplus over deficiency, of 32,000,000 bushels.

THE MINE PRODUCT.—A summary of the quarterly assessment rolls shows that the value of the gross proceeds of all the mines in the State for the quarter ending June 30th, 1880, amounted to \$3,310,486.27, while the net yield, on which taxes were paid, was only \$1,014,922.98. This was taxed for county purposes \$19,412.09 and for State purposes \$5,582.05. At this rate the State revenue from mine products will be only a little more than \$22,000 for the entire year. This is a falling off from 1875 of about \$190,000—and is a matter calculated to set us thinking. [Carson Times.

WEST POINT.

The Army and Navy Register states that General Alfred H. Terry, United States Army, now commanding the Department of Dakota, has been offered the position of commander of the Department of West Point and has declined it. The Register says:

"It is an interesting historical fact that when the Military Academy at West Point was created a separate department General Grant first tendered the command to General Alfred H. Terry, who declined it. The Register last week suggested a question as to whether General Terry might not be ordered to West Point as the successor of General Schofield. The suggestion was timely, for it appears that General Terry was summoned to Washington last week on this very business. Both the President and the Secretary of War, we are informed, are desirous that General Terry should go to West Point whenever General Schofield shall be relieved from duty. On the other hand General Terry does not desire to exchange his present important command for West Point, and it is by no means certain that he will go there. Nothing has been determined in regard to the matter. We presume General Schofield will be satisfied to remain in charge of the Academy for some time longer, and at the headquarters of the army we believe it is thought best that General Schofield should not be relieved at present. It is quite likely that the upshot of the matter will be that he will remain until the incoming of the next administration. It is no secret that General Pope would be willing to exchange the command of the Department of Missouri for West Point. If any change occurs General Schofield will doubtless be given the command of the officer who goes to West Point.

POLITICAL SOUNDINGS.

Ex-Governor Garcelon does not speak confidently of the Democratic prospects in Maine.

Mr. William M. Randolph, of Tennessee, an ex-Congressman, thinks that the Democratic dissension in the State may enable the Republicans to win in the coming election.

The Charleston News and Courier is discouraged over the Democratic situation in Georgia. Governor Colquhoun, who was not nominated, but "recommended" for the suffrage of the people, will be strongly opposed by ex-Senator Norwood, who is the candidate of the independent minority.

The name of Congressman Frye, of Maine, is frequently mentioned in these days in connection with the Speakership of the next House of Representatives, should it be Republican. Mr. Frye declares that he would rather have it than almost any other place in political life. He prefers the lower to the upper house.

OREGON NEWS ITEMS.

Grasshoppers abound in Josephine county.

Fires are raging in the Rogue river mountains.

The new locomotives of the O. R. & N. Co., have reached the Dalles.

The factory flume at Oregon City was completed last week, and the old familiar clatter of the looms was resumed.

The flouring mills at Turner has a storing capacity of 20,000 bushels; the mill building is four stories high and together with machinery and equipments approaches a valuation of \$30,000.

The Maple Leaf Rowing Association of Portland have challenged the Portland and Willamett Rowing Clubs to row for the championship of the State. The challenge has not been accepted yet.

The State Convention of the ancient Order of Hibernians, which just closed at Portland, elected the following officers to serve for the ensuing term: State Delegate, Thomas P. Dealey; Treasurer, S. J. McCormick; Secretary, Jos. B. Willey.

A. Cory and Charles Fletcher, who have ranches on Hayes's slough, Coos county, purchased in California sixteen thoroughbred Angora goats, and the stock arrived in good condition by the Arcata last week, and was placed at once upon the range.

Freight is being conveyed to and from Crescent City, Cal., and Illinois valley, Josephine county, Oregon, by teams. Travel is by the old road. The survey for the new road has been completed, and the work of grading and bridge building will soon be commenced.

HOW PEACHES ARE GATHERED.—The gathering and shipment of peaches from the Delaware and Maryland orchards employs from 6,000 to 8,000 people throughout the season, who get from 75 cents to \$1 a day, including meals and lodgings. The men are sent into the orchards at dawn with two baskets apiece. First, they carry to the sorting-room the fruit that has fallen during the night, which, after being picked over, is placed by itself. Then the limbs are shaken gently, and the peaches gathered up. The solid fruit, the pick of the orchard, which commands the highest price for canning and preserving, is picked from the limbs by hand. After they are picked, the peaches are culled by a novel machine invented by one Jones, which sorts 100 baskets an hour. The first of the fruit is known as extra, the second prime, and the smallest "cullings." The extras and primes are put up in baskets with covers, but the cullings are shipped with but little regard for the preservation, as there is always a market for them.

Typhoid fever is very prevalent in and about North Bloomfield, Nevada county. There are some ten or twelve cases of this always dangerous disease in that neighborhood.

THE CADETSHIP.—The Enterprise has the annexed notice of the successful contestant for the vacancy at the Naval Academy:

Although Lee Gaston obtained the highest average in the recent examination at Carson of candidates for the Annapolis cadetship, he fears that he will be left out in the cold. By his scholarship he considers that he has fairly won, and does not feel like giving up to another boy merely because he is the larger and stouter. He feels very badly about the report started that he has an impediment in his speech and the talk that he is physically unfit for the position to which he aspires. Although somewhat slender in build he claims to be sound and hardy. His mother also says the boy enjoys excellent health, has no impediment in his speech and that his present thin appearance is due to hard study and mental anxiety. The boy's heart is set upon going to Annapolis, and night before last he cried nearly the whole night on account of what has been said of his lack of physical stamina. Mrs. Gaston says she would prefer her son to enter some other profession, but as he is so determined on this and has studied so hard to gain the first step she will stand by him and do what she can to assist him. She believes in his powers of physical endurance and says she would not think for a moment of his undertaking a life under which he was liable to break down. In order to be sure that she had made no mistake in regard to the physical condition of her boy, she had Dr. Webster make a thorough and careful examination of him. Dr. Webster pronounced him sound as a roach—says he is a wiry little fellow, liable to pass through hardships with less trouble than a larger and heavier person.

UNION AND SIERRA NEVADA.—Of the outlook in these two mines, the Enterprise states:

It will be some time, however, before the Union Consolidated crosscuts can be expected to reach ore, as about the point where they are started the ore vein makes a great curve to the east. Ore is liable to be first cut in either the main drift going north from the Ophir on the 2500 level or that going south on the same level from the Union shaft, as the vein swings round in that direction as further north it swings in towards the northwest. At the point where the curve occurs it is thought that there is a bulge or bay in the lead of considerable width. It is supposed that the bulk of the ore lies on the outer or eastern side of the curve of the vein.

The upraise on the 2800 level of the Sierra Nevada is still in good milling ore and there are indications that the deposit will widen as it is followed up. Already they have deposits of ore developed in this mine that would yield a large amount of bullion if worked for what they are worth, as was the Hardy vein in the Ophir, from which was taken nearly \$2,000,000.

The San Francisco Bulletin says:

Albert Montpelier, Cashier and Manager of the Granger's Bank of California, has prepared a set of tariff tables showing the rates of freight on Grain from various points in California to tide water by the railroad and water routes. The figures are from official sources, and may therefore be relied upon. The first table gives the railroad tariff from stations in the West Sacramento Valley up to the Willows, to South Vallejo, Sacramento, Benicia and Port Costa and Oakland and San Francisco. The rate from the Willows to South Vallejo, Benicia and Port Costa is \$2 75, and Oakland and San Francisco \$3 25. The scale descends as the distance is shortened. The water rates by the Sacramento River are \$4 from McIntosh's Landing down to \$1 50 from Colusa. The rate from Stockton by the California Steam Navigation Company's boats is 90c. The tables were prepared for the patrons and stockholders of the Granger's Bank, but will be useful to others.

The Eureka Sentinel has the following:

Mr. James H. Kinkead was the manager of the Reno Savings Bank which collapsed a month or two since. The Gazette of that town published speeches and stories of sufferers by the failure which reflected upon the integrity of the manager, who had always enjoyed a spotless reputation in the community where he lived. Mr. Kinkead becoming exasperated sued the Gazette for libel, laying the damage at \$15,000. A few days since the suit was dismissed, and the Gazette publishes the following graceful retraction of any ill-considered language it may have used in the excitement succeeding the failure: " * * *

HAGERMAN ON THE STUMP.—The Eureka Sentinel says:

Hon. J. C. Hagerman, of Reno, was announced to address the Hancock and English Club at Gold Hill last night. Mr. Hagerman was one of our Democratic Electors four years ago. He is an able speaker, and one of the most thoroughgoing and zealous Democrats in the State. He has a host of friends in Eastern Nevada who would be delighted to see him on the stump out this way during the canvass.

DEATH IN THE WATERMELON.—A Chico dispatch of the 27th reads as follows:

Hon. A. J. Wagner, of Pine Creek, found a watermelon which he took home yesterday, and of which the family partook. The mother, three sisters and a boy were poisoned. As there was no prompt assistance on hand the cases are liable to prove fatal.

They tried it once in sixty-four, McElleland could not come it, And Seymour too in sixty-eight "My Friends, he said could do it; A platform made in seventy-two And Horace U. ran on it. While S. T. best Tilden's ball "This Fall brave men will o' us, With Garfield and Arthur.

MACKAY'S WOOD PILE.—The Carson Times says:

Over 10,000 cords of wood are now piled at the Lakeview terminus of the Sierra Nevada Wood, Lumber and Plume Company's big flume. Two side tracks aid in shipping the wood from the dump, and another is to be at once put in by the railroad people.

KING OF THE TURF.

St. Julien Beats His Previous Record—He Trots a Mile in 2:11½.

HARTFORD, Conn., August 27.
The event of the day at Charter Oak Park was the successful effort of St. Julien to beat his record of 2:11½. The day and track were favorable, and while there were predictions that the horse would accomplish the feat the general impression was that his record would not be lowered. When St. Julien came on the track, appearing in fine condition, he and his owner and driver, Hickok, were liberally applauded by large crowds of people. The horse jogged awhile, and then trotted a mile in 2:24, to warm him for his great effort. A few minutes later he came on again for the trial. Getting under speed, Hickok nodded for the word as he came to the wire, and the horse went down the stretch and around the turn at his magnificently even gait, working like a piece of machinery. Hundreds of watches were in hand and every eye followed the horse with intense interest. The watches gave the first quarter at 32½, or a 2:11 gait, and many of the enthusiastic crowd began to exclaim: "He will do it!" His action was beautiful down the backstretch, and he came to the half-mile pole in 1:05, or a 2:10 gait. The excitement increased, as did the confidence of the crowd in the success of the attempt. The third quarter was made in 1:38½, and St. Julien came at a magnificent speed around the curve and up the homestretch. As he approached the turn there was a thrill of apprehension in the crowd on discovering that the driver of the drag, which had been smoothing the track to make it perfect for the horse, was still at his work, and it seemed that he would turn the horse from his course or cause him to break, but a quick turn of the drag to the outside was made and the horse came on unimpeded and without annoyance. On nearing the distance some of the spectators thought there was a slight slackening of speed. If there was a slackening it was only momentary, for St. Julien went to the wire with a tremendous burst of speed, and on the instant watches were consulted, and there were shouts, "He has won!" and cheer upon cheer went up from the grand-stand and from the crowded section of the judges' stand, where many prominent citizens and visiting turfmen had gathered. Some gave the time as 2:11½, others 2:11½; but all acknowledged that the record was beaten, and four out of five agreed to the time afterwards, which was officially announced as 2:11½. St. Julien jogged back to the judge's stand, the spectators on the grand-stand rising to their feet, cheering and waving hats and handkerchiefs, Hickok lifting his hat in response. He was met by an official of the association and presented with a beautiful floral wreath. A floral cushion was placed upon the sulky, and St. Julien was blanketed and led up and down in front of the stand, with Mr. Humphrey, an enthusiastic admirer, following with his hands upon the sulky. President Harrison announced that in addition to the purse of \$2,500, which had been won by beating the record, the association had voted \$500 extra to Hickok. The association, he said, had been sorely disappointed by the withdrawal of Maud S, but St. Julien had come to the front and given a performance equal to anything which could have been expected from Maud S. He proposed these cheers for St. Julien, which was given with a will. Hickok was heartily congratulated by the invited guests on the judges' stand. St. Julien was led away, and the greatest event in the history of trotting was over. The managers of the Charter Oak Park felt rejoiced that their track, from which St. Julien was purchased by Hickok three years ago, has been the scene of the grandest triumph of trotting here before he was withdrawn from the turf, and this year Hannis and other noted horses have improved their record here.

Our Candidates.

The following indorsement of the leading Republican candidates is from the Belmont Courier:

Hon. Rollin M. Daggett, the non nee for Congress, deserves well of the people of Nevada for his services in the House of Representatives. We doubt if ever a man sent to the National Capital from this State worked more faithfully and successfully for the interests of his constituents than Mr. Daggett has done. He will make a strong fight and deserves to be returned to the House of Representatives, for he is solid on all the leading issues.

The nomination of the Hon. William H. Beatty for the Supreme Judgeship is not only excellent, but fortunate. He has been on the Supreme Bench of this State for over five years, and his decisions have given satisfaction to the majority of the people. Mr. Beatty is an honest impartial and learned gentleman and deserves to be re-elected to the important position for which he has been renominated.

The Prince of Wales must have an iron constitution. He rode all through a review at Windsor the other day in a heavy uniform, under a hot July sun, got back to London to dine with Lord Rosslyn at the highly respectable hour of 9:45 p. m., and then went and danced at Mrs. Palmer's ball in Grosvenor till 5:30 a. m.

AYER'S CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, AND CONSUMPTION.

The few compositions, which have won the confidence of mankind and become household words, among not only one, but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of Coughs, Colds, Consumption, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors to a great extent, and given a feeling of impunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for the speedy and prompt relief of its members. Sick, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not keep it by for the protection it affords by its timely use in sudden attacks.

REPUBLICAN

STATE TICKET:

PRESIDENTIAL ELECTORS:

R. H. TAYLOR, - - - Storey
O. H. GREY, - - - White Pine
A. E. MORTON, - - - Esmeralda

FOR JUDGE OF THE SUPREME COURT:
WILLIAM H. BEATTY.

FOR CONGRESS:
ROLLIN M. DAGGETT.

Resolutions Adopted by the Republican State Convention:

Resolved, That the platform of principles adopted by the National Republican Convention at Chicago in June deserves and receives the approval and hearty endorsement of all Republicans of Nevada.

Resolved, That the horde of Chinese that are coming in upon our shores to set our substance on fire, and to destroy our country, impoverishing our youth and making both men and women lower in the scale of humanity. This evil must and shall be stopped, and to the end we pledge the entire strength of the Republican party. In the language of our great leader, we regard the immigration of Asiatics to the United States as little less than a servile invasion. Should the Commissioners now in negotiation with the Chinese Government fail to secure by the first of next January such a modification of the Burlingame Treaty as will practically put an end to the influx of Chinese to this country, we demand that the treaty then be promptly annulled, and such laws be enacted as will forever prevent the entrance of the Asiatic scourge now menacing the well being of the Republic.

Resolved, That we most heartily endorse the general financial policy of the Republican party, which in spite of every opposition on the part of the Democracy, has led to the resumption of specie payments, the raising of our National credit to a height never before known, and the restoration of National prosperity. But we also demand the complete restoration of silver to the position which it will hold as a standard of value, and for the purpose of attaining that end we hold it to be the duty of the General Government, through the authorization of Congress, to coin into standard dollars or other legal tender currency, at the cost of coinage and for the purpose of the entire production of the country, and relieve the mining industry from the loss attending the shipment to, and sale of silver bullion in foreign markets. As mining for the precious metals is the leading industry of Nevada, we are in favor of the bill reported by the Committee on Mines and Mining, and now before the House of Representatives, prohibiting the following of Assurance veins or deposits beyond vertical lines of surface boundaries, and we urge our representatives in both Houses of Congress to continue their efforts for its defeat. Such a restriction would work disaster to the laborers of the prospector and seriously retard the development of the mineral riches of the West, and we cordially endorse the bill reported by the Hon. R. M. Daggett, in this behalf.

Resolved, That the Republican party claims it to be the right and duty of the State and Territorial Legislatures to regulate and restrict the charges of railroads and other public utilities, and to create an increased demand and as a circulating medium for the precious metals which our mines are annually yielding.

Resolved, That General James A. Garfield and Chester A. Arthur, by their services to the Union, by their devotion to principle and by their untarnished reputations as men and as citizens, are deserving of united and earnest support of all the loyal people of the United States for President and Vice President. We rejoice in their nomination and pledge to them their support and endorsement at the ensuing election by an overwhelming majority.
